Health Systems – Best Practices & Ideal

VistA

“VHA’s integrated health information system, including its framework for using performance measures to improve quality, is considered one of the best in the nation.”

Institute of Medicine (IOM) Report, Leadership by Example: Coordinating Government Roles in Improving Health Care Quality (2002)

Success in supporting health delivery for millions of veterans

VistA

- **VistA/CPRS was & is a success**
 - Built by “fire” of VHA collaboration
 - Publicly owned by VA; could be for future as well
 - Strong interest by public/private in using VistA
- **Largest integrated health info system for nation’s largest integrated health system**
- **Helps serve 4.1 million American veterans annually**
- **Supports:**
 - \$23+ billion nationwide health system
 - 1,300 care sites, incl. 163 hospitals & 800+ community & facility based clinics
 - 180,000 health care staff; 85,000 trainees
- **Considered best overall health information system**

VistA - Why change?

The logo for VistA, consisting of the word "VistA" in a serif font inside a blue oval with a gradient.

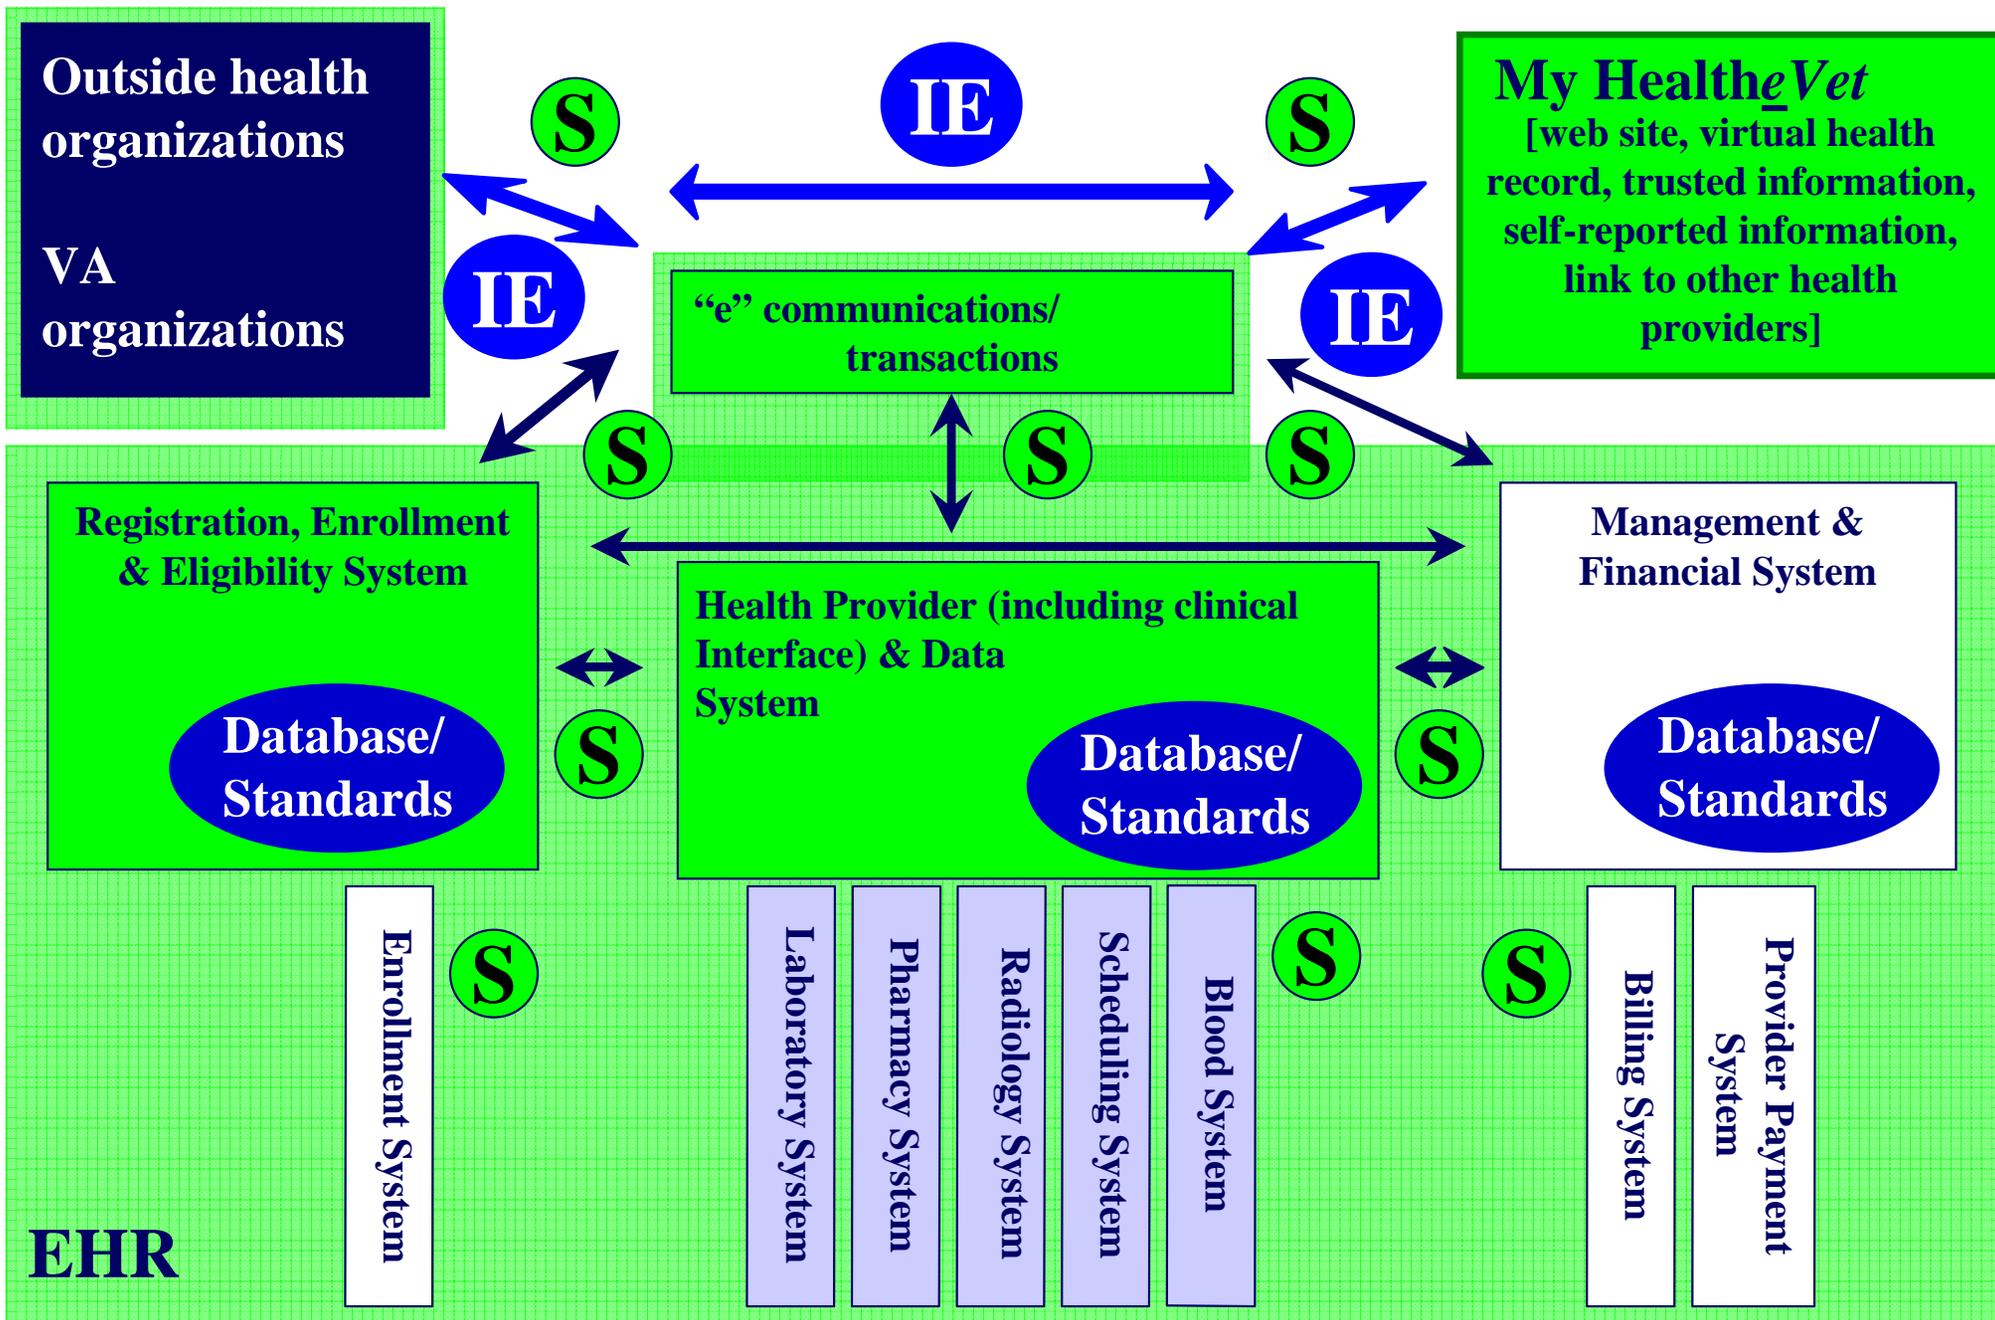

- **Not lose functionality we have**
- **Strengthen VistA**
 - Move to person & data focus
 - Move to standardized, fully sharable health data
 - Modernize & replace older systems
 - Ensure documentation on application programs
 - Move to modern technologies
 - Increase flexibility to respond to future health needs
 - Lower cost of maintenance
- **Support our future health system**

Health_Vet – strategy overview

- **Moves from facility-centric to person/data-centric**
 - Uses national, person-focused health data repository for production & management/analysis/research
- **Builds on, enhances & utilizes VistA**
 - Moves from legacy VistA to Health_Vet-Vista
- **Uses best, appropriate modern technology**
 - Programming, software, hardware, networking
- **Moves “core” applications to run “enterprise-wide”**
- **Standardizes core data & communications**
- **Enhances the five major systems**
 - Regis./eligibility/enrollment, health data, provider, management/financial, “e” commun./transactions
- **Enhances cross-cutting**
 - Security/privacy, architecture, data quality/standards, infrastructure, enterprise system/resources management

Link Task

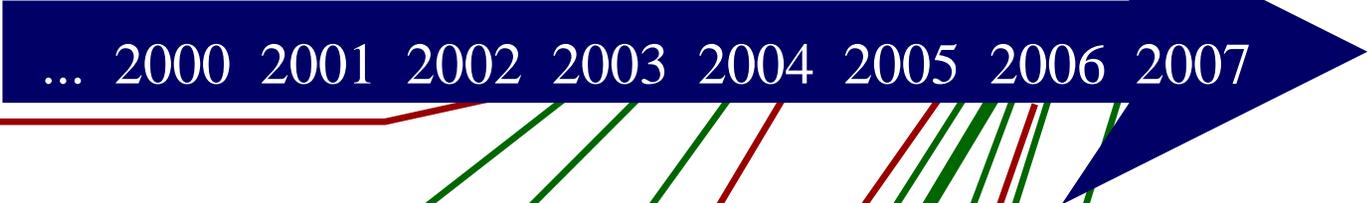

The screenshot shows the 'Care Management Dashboard' interface. At the top, there is a menu bar with 'File', 'Edit', 'View', 'Action', 'Tools', and 'Help'. Below the menu is a table of patients with columns for 'Rslt', 'Task', 'Evt', and 'Sign'. The table lists several patients, including 'DAWSON, JAMES K.', 'JONES, ORVILLE', 'LAYLOCK, CHESTER KIRB', 'LIME, HARRY', 'LUMSEN, MARTIN', 'MC GOUN, THERESA', 'O'FARRELL, TERRILL', 'PENNIMAN, MATTHEW', 'PUMPHREY, JOSEPH K.', 'PURDY, ARCHIBALD', 'REITMAN, FERDINAND', 'RIESLING, PAUL', and 'ROUNDTREE, CECIL'. A red square icon is visible next to 'DAWSON, JAMES K.' and 'PENNIMAN, MATTHEW'. Below the table, there is a detailed view for 'DAWSON, JAMES K.' with a phone icon and the number '326-44-6616' and a date '01/9/66 (36)'. The main content area shows a list of lab results for 'HEM 7 BLOOD SERUM LC ONCE LB #1059' dated 'Apr 22, 2002@14:48:26'. The results include: 'GLUCOSE 100 mg/dL 60-123', 'UREA NITROGEN 2 L mg/dL 11-24', 'CREATININE 2.7 H mg/dL .9-NEGATIVE', 'SODIUM 132 L meq/L 135-145', 'POTASSIUM 6 H meq/L 3.8-5.3', 'CHLORIDE 33 meq/L 100-108', 'CO2 24 meq/L 23-31', 'CALCIUM pending mg/dL 9-11', 'AMYLASE 23 IU/L 14-110', and 'CALCULATED OSMOLALITY 277 mOsm/L 275-300'. There are also comments: '~For Test: DIGOXIN (STAT)' and '~Dose is expected to be at UNKNOWN level.' Below the results, there are links for 'Link Task', 'Go to Chart', and 'ReOrder'. At the bottom right of the results section, there is a checkbox labeled 'Acknowledge'. Below this, there is another lab result for 'TRIGLYCERIDE BLOOD SP LB #1090' dated 'Apr 24, 2002@10:20:38' with a value of '432' and similar links and an 'Acknowledge' checkbox. At the bottom, there is a partially visible result for 'CHOLESTEROL BLO... CHOLESTEROL' with links and an 'Acknowledge' checkbox. On the left side of the dashboard, there is a vertical menu with options: 'Dashboard', 'Pt Chart', 'Encounter', 'Query', 'Sign List', and 'Sign-Out'. A red square icon is also visible next to 'DAWSON, JAMES K.' in the menu.

New results may be viewed, acknowledged and associated with tasks for follow-up

Toward NHII and a “Virtual Health System”

•EHRs –

- Provide financial incentives
- Strongly encourage private sector vendors to make available affordable, high quality, standards-based EHRs
- Strongly encourage provider-based efforts like AAFP
- Continue to improve HealthPeople-VistA & make available

•PHRs –

- Strongly encourage public/private sector to work together to develop & make available PHRs for persons

•EHR/PHR Info Exchange (IE) –

- Strongly encourage public & private sector to work together to develop & make available national “exchange” solution

•Standards –

- Consolidated Health Informatics as federal leadership
- Strongly encourage public/private development/adoption of national standards

Toward NHII and a “Virtual Health System” – Veterans Health Administration Role

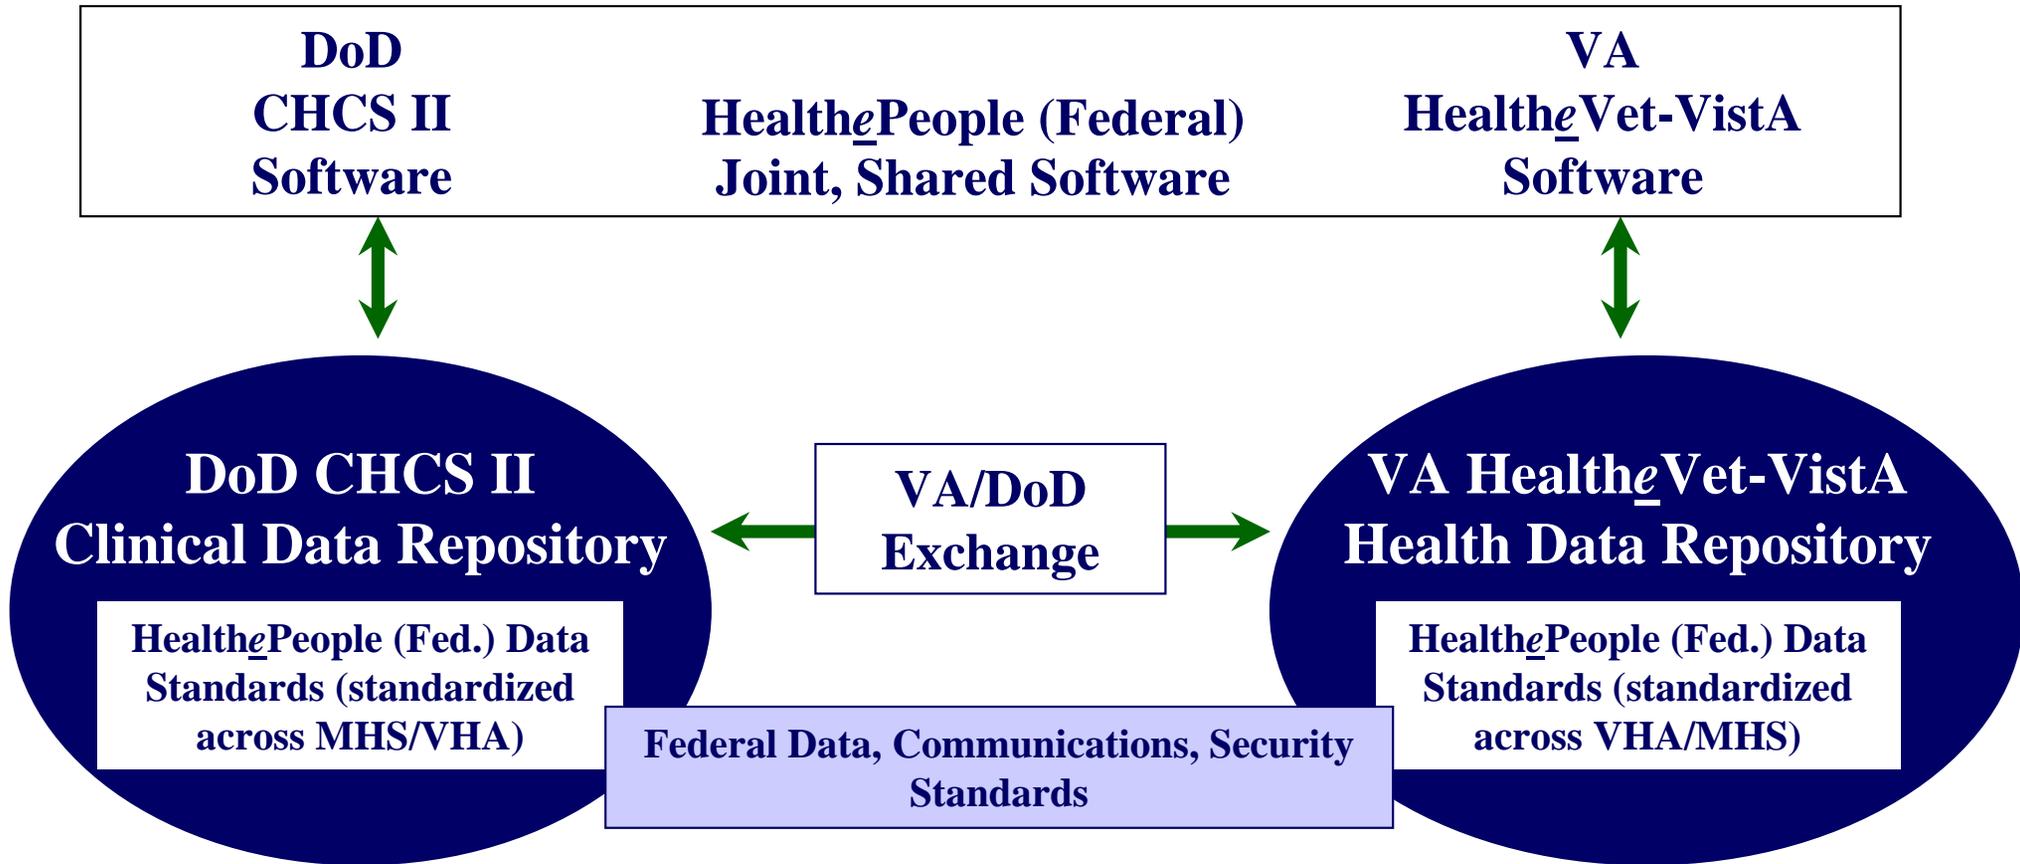

- **VHA push EHRs, PHRs, EHR/PHR Info Exchange & Standards in Federal and nationwide**
- **VHA support of NHII**
- **EHRs – VHA**
 - Current -- VistA electronic health record system
 - Next generation -- HealtheVet-VistA
 - Public version -- HealthePeople-VistA
- **PHRs – VHA**
 - My HealtheVet
- **EHR/PHR Info Exchange (IE) – VHA**
 - Federal Health Information Exchange with DoD
 - EHR Interoperability (HealthePeople (Federal) with DoD & IHS)
- **Standards – VHA**
 - Adoption of VHA-wide standards
 - Adoption of standards between VA and DoD and VA and IHS
 - Consolidated Health Informatics

Toward NHII and a “Virtual Health System” – Veterans Health Administration Activities

- VA/DoD Electronic Health Record (EHR) System
- Health Informatics Standards, Federal Health IT Architecture, & related Federal eGov Initiatives
- State Veterans Homes & VistA/CPRS
- Indian Health IT Sharing
- AAMC & Affiliated Medical Schools & VistA
- Federal/State/Local) Health Info & VistA Sharing
- EHR/PHR Info Exchange (IE)
- Personal Health Records & Home Tele-Health Care
- Public Health Info Systems/Databases & VistA Data
- Private Sector/Non-Government activities
- International Healthcare Community & VistA

Computerized Health Records (FY 2005+)

Standards – Jointly use data, communications, architecture, security, technical, software standards; federal standards & potential national standards across public/private sector

Software – VA/DoD/Joint high performance software

Databases – Separate; enterprise-wide w/i each agency

Hardware – Separate; mix of enterprise & local w/i each agency

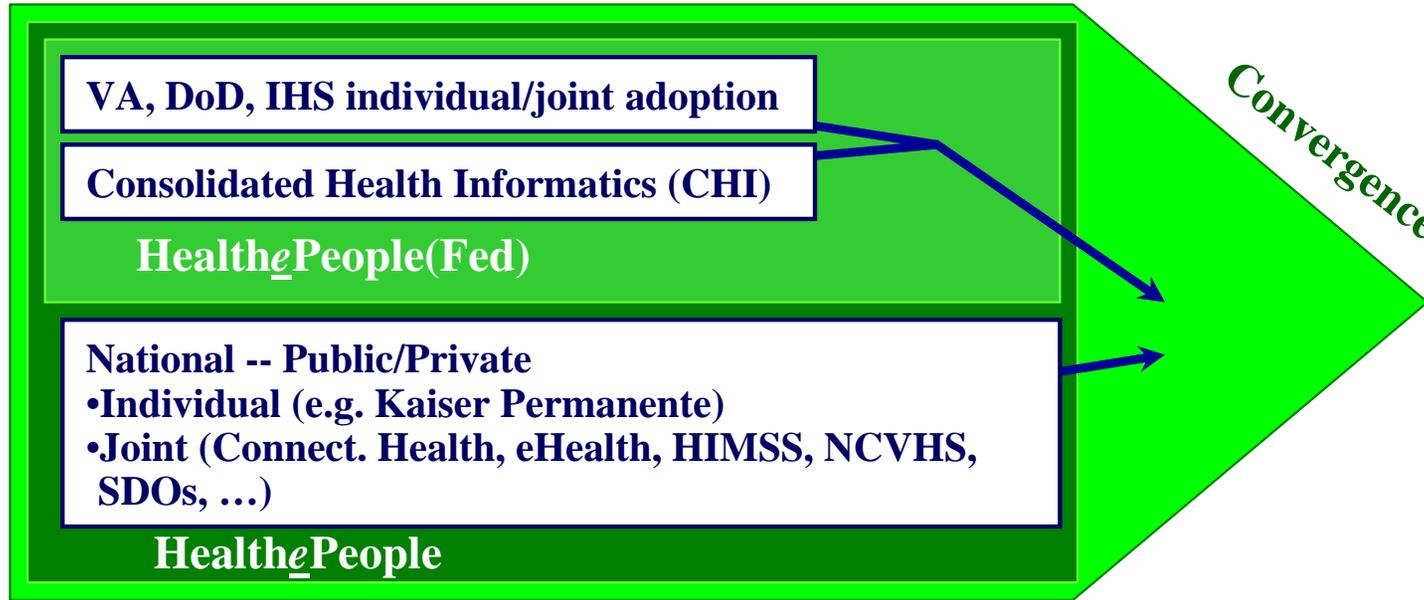

Exchange – Two-way VA/DoD
