**Using Sub-county Data to Promote Multi-sector Approaches for**  
**Community Health and Well-being: Identifying Gaps and Opportunities**  
*Courtyard Marriott, DC/US Capitol—NoMa/Gallaudet Metro*  
**September 27, 2016**  
**Agenda**

**The purpose** of this meeting is to help NCVHS advance recommendations to HHS in three areas:

- 1) Enhance public/private collaboration to increase the availability of sub-county data
- 2) Improve HHS data collection to focus on sub-county data
- 3) Better align federal small area data estimation and sub-county data generation initiatives

**Specifically the objectives of this meeting are to:**

- Put forth a multi-sector measurement framework reflective of the numerous initiatives under way, to serve as a basis for public/private collaboration.
- Identify opportunities and gaps in sub-county level data metrics and potential Federal role in expanding the development of small area data.
- Explore opportunities to align, leverage, and build multi-sectoral sub-county level metric-centric efforts to improve health and well-being.
- Catalyze collaborative efforts to continue this work.
